5. If field availability dictates a time limit on a game, the Home Team Manager **MUST** discuss this at the plate meeting with the Plate Umpire AND the Opposing Manager BEFORE lineups are exchanged. The time limit will be administered by the Plate Umpire.

Any game with a time limit will follow this procedure:

- d. No New Inning may begin at or after 30 minutes prior to the time limit stated at the Plate Meeting. A new inning begins the moment the 3rd out is made in the previous inning.

Example: if a game has a stated time limit of 2:30, no new inning will begin at or after 2 hours – the Plate Umpire will Call the Game at such time.)

No New at-bat may start at or after 15 minutes prior to the time limit stated at the Plate Meeting

Example 1: if a game has a stated time limit of 2:30, and batter 'Abel' has a 1 strike count when the clock changes to 2:15, Abel will complete his at-bat and when play ends, the Plate Umpire will Call the Game.

Example 2: 2:30 time limit, Abel hits a double at 2:14. Before Baker enters the batter's box, the clock changes to 2:15. Plate umpire will Call the Game)

6. When the Plate Umpire Calls a Game due to a time limit, weather, or field conditions:
 - e. If the game is a Regulation Game according to Official Playing Rule 4.10, then 4.10 will determine the result of the game. A game that has been played for at least 1 hour and 45 minutes will be considered a regulation game (4.10 (c) 2).
 - f. If the game is not a Regulation Game, then the game is Suspended. All Suspended Games will be resumed the next time the same two teams meet on the schedule, and Rule 4.10(d) and 4.12 will be followed (play will be resumed at the point of suspension).

If the game is resumed prior to another scheduled game, and field conditions or availability require a time limit, the resumed game will proceed until a winner can be determined by Rule 4.10(c) and Rule 4.10(e). Once a winner can be determined, the Plate Umpire will call the game.
